Portfolio

Objective

Motivated MERN stack developer passionate about leveraging front-end and back-end skills in a professional environment. Seeking to apply academic knowledge while embracing continual growth and learning in web development.

Skills

Programming languages: JavaScript(ES6), C

Front-End: React.js, Tailwind CSS, Nextjs, Firebase, Axios

Back-End: Node.js, Express.js, JWT authentication, MongoDB

Tools: GitHub, VS Code, Figma, Vercel, Surge, Netlify

Projects

1. Chill Gamer(A Game Review Application)

Front-End Back-End

- Full-Stack Development: Engineered a social networking platform integrating React, Node.js, MongoDB, and user-centric features.
- Cutting-Edge Frontend: Utilized React, Firebase, Tailwind CSS, and multiple libraries for dynamic, responsive UI/UX.
- Scalable Backend Architect: Crafted RESTful APIs using Express, and JWT for robust system functionality.

2.ServeTogether(A Volunteer management System)

Front-End Back-End

- Assignment Management: Seamless assignment creation, submission, and marking.
- User Authentication: Secure sign-in and protected routes for authenticated users.
- Technologies: React, Axios, React Router, Tailwind, Express, MongoDB, JWT, Cors, dotenv.

Education

BSC in Computer Science and Engineering (ongoing)

Green University Bangladesh, Dhaka, Bangladesh

Course: Complete web development course with Jhanker Mahbub at Programming Hero.

Languages

Bangla: Native

English: Comfortable

Hindi: Familiar
